**XLP™ Plug-in Hybrid Electric Solution**

> Ford F-150 upfit solution provides a 50% increase in miles driven per-gallon*

XL Hybrids, the leader in connected fleet electrification solutions, now gives commercial fleets a simple plug-in solution to cut fuel costs. Our revolutionary XLP plug-in hybrid electric technology seamlessly installs onto Ford F-150 pickup trucks, and ordering ship-thru upfits is easy.

**Fleet-Ready™**

The OEM powertrain and warranty remain intact. Our plug-in hybrid component warranty is 3-years or 75,000 miles.

**Big Savings**

The XLP hybrid system delivers a significant reduction in gallons used, so drivers can go longer between fill-ups.

**Superior Driveability and 99+% Uptime**

Our plug-in hybrid vehicles drive just like the other units in your fleet – no driver training needed. With tens of millions of fleet miles, XL Hybrids vehicles have a proven track record of 99.9+% uptime.

xlhybrids.com | Simple. Smart. Sustainable.
XL Hybrids has pioneered a plug-in hybrid electric powertrain that is revolutionary in its simplicity. In addition to regenerative braking, the XLP features a volume production-ready, high voltage lithium battery pack. XLP is compatible with Level 1 and Level 2 charging using an industry-standard J1772 plug interface. The XLP system has no special maintenance requirements.

XLP™ Plug-In Hybrid Electric Drive Powertrain
